

Zips Podium

Designed for Discovery, Built for Security.

Free The Tester, Secure The Sale

Zips Podium is a free standing display that invites customers to touch, test, and compare fragrances, ultimately helping to increase sales. Through discreet security, it provides a seamless “try before you buy” experience for customers and a frictionless one for associates.

SENSORY FIRST DESIGN

An open invitation to experience the product as intended—where every interaction feels immersive and natural.

SIMPLE AND REUSABLE

Built for the rhythm of retail. Easy to remerchandise, Zips Podium keeps every product visible, current, and ready to sell.

END TO END SECURITY

Multilayered security that deters theft visibly and audibly, without slowing the sale or compromising experience.

Designed to Do One Thing Exceptionally Well:

Showcase Your Fragrance Without Compromising Security.

Most retailers feel caught between two bad options: leave products exposed and risk shrink, or lock them up and lose the sale. Zips Podium breaks that no-win cycle by putting testers back where they belong—on display—Creating engagement for customers, less hassle for associates, and protected margins for retailers.

Proven Performance in Every Detail

Distinction:

A design that lifts the fragrance into focus and adapts to your brand's aesthetic—centering attention on the product without distraction.

Security:

Discreet sensors, a 95dB alarm, and an anti-slip base secure your product—responding instantly to removal or tampering.

Modularity:

Built with replaceable components, the system allows quick swaps of sensors or damaged parts—no full system change, no lost uptime.

Scalability:

Integrated with the OneKEY ecosystem—extend the same smart access used for cabinets to your open- display.

Durability:

Engineered for endurance. Its silicone base and adhesive sensors resist fragrance overspray, wear, and daily use.
